EXPERIENCE

Charter Communications – Network Engineer III – Greenwood Village, CO

Sep 2025 – Present

- Engineered **Juniper** EX4300 conversions from **OSPF/IS-IS** to **BGP**, with route reflectors and routing policies.
- Onboarded **Juniper** EX4400 platforms, configuring IP management services, **TACACS+**, and **BGP**.
- Performed **IS-IS** overlay for new L1/L2 adjacencies; new policies, groups, and bundle configurations.
- Migrated ANA, CMTS, and Video equipment from legacy to **Juniper** QFX and PTX switches/routers.
- Led infrastructure network maintenance window changes across verticals such as DOCSIS, Video, and Enterprise.
- Authored and peer-reviewed MOPs and CRQs to support impacting and non-impacting maintenance windows.
- Create and maintain **Jinja2** automation templates with **Python/JSON** for infrastructure deployment in NetOps.
- Mentor junior engineers through operations guidance, troubleshooting, and peer technical reviewing.

danieljlepiscopo.com – Content Creator – Online

Apr 2025 – Present

- Published cybersecurity and networking-focused articles on my technical blog.
- Created and produced educational programming tutorials on my YouTube channel.
- Enterprise networking labs and automation projects are available on my GitHub.

Charter Communications – Network Engineer II – Greenwood Village, CO

Feb 2022 – Sep 2025

- Assisted in provisioning DOCSIS access infrastructure, including OLTs, ANAs, and CMTS platforms.
- Configured management/streaming connectivity for video infrastructure, including Radiant, Sencore, and Apex.
- Enhanced automation templates utilizing **Jinja2** for my implementations to standardize and improve workflows.
- Authored and peer-reviewed MOPs and CRQs to support non-impacting maintenance windows.
- Learned optical provisioning and testing across Cisco, Ciena, and Nokia for new wavelength installations.
- Performed **Layer 2/3** troubleshooting and support involving **VLANs**, **trunking**, **multicast**, **ACLs**, and **BGP**.
- Participated in a rotational on-call, maintenance windows, and **Layer 1** testing responsibilities.

EDUCATION

B.S. Computer Science, Colorado State University (*Expected May 2028*)

CERTIFICATIONS

[Cisco CCNA 200-301](#)

[CompTIA Security+ SY0-701](#)

AWS Cloud Practitioner (*Exam Date: 06/25/2026*)

[Google Cybersecurity Professional Certification](#)

SKILLS

Networking: Cisco, Juniper, BGP, OSPF, IS-IS, EIGRP, Multicast, ACLs, QoS, DHCP, NAT, IPv4/IPv6, WAN/LAN

Automation: Python, Git, GitHub, GitLab, Ansible, VS Code, Kiro, Jinja2, YAML, JSON

Security & Monitoring: Microsoft Sentinel (SIEM), IAM, TACACS+, Syslog, SNMP, Wireshark, tcpdump, Nmap

Cloud: Microsoft Azure, AWS, VirtualBox, Virtual Networks, Subnet Design

Tools: Jira, Confluence, Postman, NetBrain, Microsoft Visio, SecureCRT, Microsoft Office
