linkedin.com/in/danielilepiscopo

Networking professional with 4+ years of experience managing core infrastructure at scale with light scripting.

EDUCATION

Bachelor of Science in Computer Science (In Progress)

Colorado State University - Graduation Date: May 2028

CERTIFICATIONS

[Google Cybersecurity Professional Certification](#)

[CompTIA Security+ SY0-701](#)

[Cisco CCNA 200-301 V1.1](#)

AWS Cloud Practitioner (Exam Date: 04/30/2026)

PROJECTS

Project: Designed and configured a home lab using real Cisco routers and switches.

Source: github.com/danielilepiscopo/ccna-homelab

Platforms: Cisco IOS, real hardware

Project: Implementing a Honeypot in Azure with an Attack Map

Source: github.com/danielilepiscopo/windows-honeypot-sentinel

Platforms: Azure Virtual Machines, Microsoft Sentinel (SIEM), KPL, Log Analytics

EXPERIENCE

Charter Communications

September 2025 - Present

Network Engineer III

- Build and help maintain automation templates for device turn-up (Python backend, Jinja frontend).
- Contribute to large-scale initiatives (Charter's C3), consolidating network infrastructure across regions.
- Mentored and coached junior engineers, fostering team collaboration and growth.

Daniel J. L'Episcopo | danielilepiscopo.com

April 2025 - Present

Content Creator

- Write and publish cybersecurity and networking content on a blog and YouTube channel.
- Showcase technical breakdowns of packet analysis, SIEM configuration, detection logic, and command-line tooling.

Charter Communications

February 2022 - September 2025

Network Engineer II

- Engineered and managed LAN/WAN networks, implementing OSPF, EIGRP, BGP, and IS-IS for optimized routing.
- Configured and maintained VLANs, trunking, multicast, and Layer 2/3 protocols to ensure seamless connectivity.
- Resolved network issues in on-call overnight rotations, troubleshooting BGP, firewalls, ACLs, and security policies.
- Troubleshoot with other verticals on resolving issues with OLT, CMTS, Apex, Sencore, and Radiant devices.

SKILLS AND TECHNOLOGIES

Networking: Cisco(IOS, IOS-XR), Juniper (JUNOS) BGP, OSPF, VLAN, STP, DHCP, NAT, ACLs, MPLS, Multicast

Automation: Python (basic), Jinja2, Git, VS Code, automation templates (internal deployment), JSON

Security: SIEM (Azure Sentinel), KQL, IAM, firewall rules, packet analysis

Cloud & Infra: Azure, Virtual Networks, Subnet Design, Log Forwarding, Optical (Cisco, Ciena, Nokia)

Tools: Jira, Confluence, Wireshark, tcpdump, Postman, NetBrain, Microsoft Office
