EXPERIENCE

Charter Communications – Network Engineer III – Greenwood Village, CO

Sep 2025 – Present

- Engineered **Juniper** EX4300 routing from **OSPF/IS-IS** to **BGP** with route reflector and routing policy validation.
- On-boarded **Juniper** EX4400 platforms, configuring IP management services, **TACACS+**, and **BGP**.
- Migrated ANA, CMTS, and Video equipment from legacy to Juniper QFX and PTX switches/routers.
- Led infrastructure network maintenance windows changes with verticals like DOCSIS, Video, and Enterprise.
- Authored and peer-reviewed MOPs and CRQs to support impacting and non-impacting maintenance windows.
- Create and maintain **Jinja2** automation templates with **Python** for infrastructure deployment in NetOps.
- Mentored junior engineers through operations, troubleshooting, and peer technical reviewing.

Daniel J. L'Episcopo | danieljlepiscopo.com – Content Creator – Online

Apr 2025 – Present

- Published cybersecurity and networking-focused articles on a technical blog.
- Created and produced educational programming tutorials on my YouTube channel.
- Selected technical projects to showcase my knowledge:
 - Designed, implemented, and documented CML labs: github.com/danieljlepiscopo/cml-labs
 - Homelab with real Cisco IOS switches/routers: github.com/danieljlepiscopo/ccna-homelab
 - Implemented a Honeypot in Azure: github.com/danieljlepiscopo/windows-honeypot-sentinel

Charter Communications – Network Engineer II – Greenwood Village, CO

Feb 2022 – Sep 2025

- Supported **WAN/LAN** networks, utilizing **OSPF**, **EIGRP**, **BGP**, and **IS-IS** for optimized routing.
- Assisted in provisioning DOCSIS access infrastructure, including OLTs, ANAs, and CMTS devices.
- Troubleshoot video infrastructure platforms, including Radiant, Sencore, and Apex devices.
- Configured and maintained **VLANs**, **trunking**, **multicast**, and **Layer 2/3** protocols.
- Participated in a rotational on-call, maintenance windows, and **Layer 1** testing responsibilities.

EDUCATION

B.S. Computer Science, Colorado State University (Graduation Date: May 2028)

CERTIFICATIONS

[Cisco CCNA 200-301](#)

[CompTIA Security+ SY0-701](#)

AWS Cloud Practitioner (Exam Date: 05/14/2026)

[Google Cybersecurity Professional Certification](#)

SKILLS

Networking: Cisco, Juniper, BGP, OSPF, IS-IS, EIGRP, Multicast, ACLs, QoS, DHCP, NAT, IPv4/IPv6, WAN/LAN

Automation: Python, Jinja2, Git, GitLab, VS Code, Ansible, YAML, JSON

Security & Monitoring: Microsoft Sentinel (SIEM), TACACS+, Syslog, SNMP, Wireshark, tcpdump

Cloud: Microsoft Azure, AWS, Virtual Networks, Subnet Design, Log Forwarding

Tools: Jira, Confluence, Postman, NetBrain, Visio, SecureCRT, Microsoft Office
